A festival of psychics, healers and spiritual seekers

Tickle your Intuitive Senses

If you have experienced something you can't explain, you're not alone. Since 2009, the Intuitive Arts Festival has been creating a space for spiritual seekers to gather and share. You can get a psychic reading or try an energy healing session. Find spiritual gifts, witchy wares and rocks and gems for your collection. Workshops are happening all weekend long on topics such as Tarot, Reiki and Intuitive Development.

“There's a lot of healing that happens. I hear the stories of big epiphanies that create ripples of positive change in people's lives.” said organizer Psychic Clairvoyant Andrea Zonnis. “It's an amazing feeling to witness someone find a missing piece of themselves.”

The intention of The Intuitive Arts Festival is to have participants connect with their inner voice and listen to the wisdom inside. Bring your curiosity and explore your sixth sense.
